Mr. Cory Quarles  
Vice-President, ExxonMobil Alaska Production Inc.  
P.O. Box 196601  
Anchorage, Alaska 99519

**Re: Coverage under the Wastewater Discharge Authorization Program (WDAP)  
General Permit 2016DB0001 Class I Well Waste Disposal**

Dear Mr. Quarles:

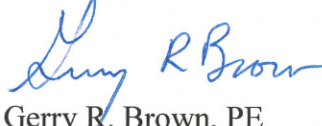

The Alaska Department of Environmental Conservation (DEC), WDAP, is reissuing authorization 2016DB0001-0023 – ExxonMobil Alaska Production Inc., Point Thomson Class I Underground Injection Control (UIC), Well DW1. This issuance is in response to the Notice of Disposal (NOD) dated December 5, 2016 and authorizes the injection of nonhazardous waste fluids as described in the Environmental Protection Agency (EPA) permit AK-11015-A. Specifically, the Class I well will be used for the disposal of wastes as described in the Waste Analysis Plan (WAP) submitted to DEC with the NOD.

The permittee must submit EPA Form 7520-8 and the DEC annual report form (enclosed) by January 31<sup>st</sup> of the following year. If the WAP was modified during the previous year, the revised WAP must also be submitted. Copies of other reports required by EPA (e.g., mechanical integrity reports) are not to be submitted to DEC. In all correspondence and reporting, prominently place the DEC authorization number in the subject line or title. EPA permit numbers may be provided as a cross-reference only. Submittals including reports and notifications must be sent to:

Department of Environmental Conservation  
Division of Water  
Oil and Gas Section  
555 Cordova Street  
Anchorage, AK 99501  
[dec.water.oilandgas@alaska.gov](mailto:dec.water.oilandgas@alaska.gov)

If you have any comments or questions regarding this authorization, please contact Marc Bentley at (907) 269-6287, [marc.bentley@alaska.gov](mailto:marc.bentley@alaska.gov).

Sincerely,

A handwritten signature in blue ink, appearing to read "Gerry R Brown".
